PROFILE

Self-motivated, hard-working front end developer currently working on a large online shop for digital game products and learning Node.js and Express.js. Looking for a full-time position to enhance my programming skills and learn from experienced colleagues.

EXPERIENCE

Front End Developer

MAY 2023 - PRESENT

- Working in a team as a frontend developer building fully responsive websites for clients using React JS, Redux State Management and MUI.
- Requesting and updating database data using Axios and React Hooks.
- Team collaboration using Git and Atlassian Jira.

Freelancer Website Creator, Fiverr, London

NOVEMBER 2019 - AUGUST 2021

- Worked with 12 clients from the United Kingdom, the United States and Israel.
- My projects were Landing Pages, Online Shops; website adapted for Photography Services, Recruitment Companies, Dry Cleaning or Financial Services.
- I am currently a Level 1 Seller on Fiverr with 5 star reviews from 8 clients.
- Fiverr Profile URL: <https://www.fiverr.com/tomavictor>

Fiber Optics Engineer, Project Partners (telecoms) Ltd, Cambridge

JUNE 2020 - SEPTEMBER 2020

- Installed fiber-optic cables inside and outside residential buildings for multiple flats.
- The work included drilling, installing cable support, cable protection, central connection point and the fiber-optic cables.

Erasmus+ Programme Work Placement, Salabka Restaurant, Prague

FEBRUARY 2018 - FEBRUARY 2018

- Worked with a Business student at a restaurant in Prague, Czech Republic to bring new website and marketing ideas.
- Created a list of solutions for improving the social media part that was sent to the manager for potential implementations.
- Built a small version of the website to outline what improvements could be added to the main website.
- Reference attached to the CV.
